Democratic Meeting.

The Democrats of the city of Fort Wayne are requested to meet at the Court House on Tuesday evening next, April 11th, at 7 o'clock, to take the preliminary steps for holding a Convention for the nomination of City Officers.

Some difference of opinion having arisen on the subject of the Democratic City Convention, and in the absence of a regular city committee whose duty it would be to call the Convention, two different notices have been issued. It has been thought advisable, after consultation with several prominent Democrats, to call a meeting on Tuesday next to take the matter into consideration, have a free interchange of opinion, and make such arrangements for a convention and the nomination of city officers as may be thought best for the interest of the city and the Democratic party. We hope to see a full attendance.

The Ward Meetings advertised for Tuesday evening will not therefore be held.

Township Election.—At the Wayne Township election on Monday last, the following townships were elected:—all Democrats, of course: Trustees—E. Nidderger, Clerk—Charles A. Ricker, Treasurer—Oscar P. Morgan, Constables—J. P. Walters, G. Christy, F. J. Frank, Samuel G. Johnson.

Road Supervisors.—1st Dist., M. G. Ryan, 2d Dist., Russell Bennett.

The officers of our state benevolent institutions have held a meeting and memorialized the Governor to call an extra session of the Legislature to make the necessary appropriations for their support—a duty which the factious fusion Senate refused to perform at their late session.

The Governor replies that whenever the Legislative Department evinces a willingness to co-operate they shall have every opportunity which he can afford them.

We are a little doubtful of the policy of again convening a body which has proved so recalcitrant to the trust reposed in them. If they would not discharge their duty at the regular session what security is there that they will do better in the extra session? However, it is a case of emergency, and it may be impossible to preserve the honor and credit of this state without having the extra session. If so, the Governor must of course convene it; and whenever he has the assurance that the Legislature will do its duty, we presume he will call it together.

Elections.—In Toledo the Democrats suffered themselves to be divided and distracted, and as a natural consequence what was called the People's Ticket was elected by 400 majority.

The Democrats in Fort Wayne might learn a good lesson from this.

In Cleveland the Democrats succeeded by 200 majority.

In Cincinnati the race was about even, each having elected part of their officers. Sam and Family were most lovingly united, and were aided by a large body of Germans, led off by those renegades Harsavack, Molitor & Co. The election showed a large Democratic gain, and by next year Cincinnati will be redeemed.

In St. Louis the emancipation ticket succeeded by 1500 majority. Where are the border ruffians?

Payton elected the Democratic ticket by 70 majority.

Fruits of Fusionism.—The effects of the result of the treacherous fusion majority in our Senate to pass the appropriation bills are beginning to show themselves. By the circular below it will be seen that the Commissioners of the Indiana Hospital have felt themselves compelled to close the institution, and the unfortunate inmates will have to be turned adrift. Many of them, of whose recovery strong hopes were entertained, will relapse into their former state of insanity, and all will unquestionably be greatly injured. The labors of years will be destroyed, and when the patients are reassembled in the institution, if ever, the work of the Superintendent, the physicians, and the assistants will have to be done over again. Of the sufferings and privations which many of the patients will have to undergo in the mean time of the anxiety and watchfulness which will be imposed upon their friends in their care, it is unnecessary to speak. All will appreciate them at once.

This is the first fruit of fusionism. It will doubtless be followed by the closing of the Asylums for the Blind and the Deaf and Dumb. For all these and numerous other evils, among which will be the non-payment of the interest on the public debt, the Republicans are clearly responsible. Availing themselves of the power their majority in the Senate gave them, they refused to pass the appropriation bills, and we now are beginning to reap the fruits of their misconduct.

Circular from the Commissioners and Superintendent of the Hospital for the Insane.—At a meeting of the Board of Commissioners of the Indiana Hospital for the Insane, held at Indianapolis, on Friday, the 3d of April, 1857, the following circular was addressed to the Clerks of the several counties of the state of Indiana: In consequence of the failure of the necessary appropriation bills, no money can be drawn from the Treasury for the support of this institution beyond the 1st inst. A most painful and unpleasant duty, therefore, devolves upon the Commissioners and Superintendent of the Hospital for the Insane. We are compelled to give you notice that the insane can no longer be supported in the Hospital, but must therefore be returned to the counties from which they were sent.

The following preamble and resolution were unanimously adopted: "WHEREAS, the funds heretofore appropriated to support this institution to the 1st of April, 1857, are exhausted, and the Statutes positively forbid the Treasurer of the State to advance to, or the Board of Commissioners to borrow money for the support of the Institution: Therefore,

Resolved, That the Superintendent be directed to give immediate notice to the Clerks of the several counties to remove their patients from the said institution with as little delay as possible.

HENRY BRADY, Pres't pro tem.

JAMES S. ARTHUR, Sup't and Sec'y.

Mr. Lusk has removed his lively establishment to the Mayor House stables. Those who want a gentler turn out, in the shape of splendid horses and good carriages, had better give the Major a call.

Kansas and the Freedom Strikers.—The past disinterested into a of the black republicans in favor of "Free Kansas" nor their present efforts to make it a slave state by refusing to vote at the election of delegates to form a state constitution, do not seem to be properly appreciated in that benighted region. Governor Geary says that nine out of ten of the inhabitants of the territory would have voted for Mr. Buchanan as President, and that the proportion of Black Republicans is hardly more than one in twenty. "Five sixths of the people, too, prefer that slavery should not be recognized by a State Constitution; and it is the administrative policy of submitting the organic law to vote prevail, that question will be disposed of satisfactorily in the manner we have indicated.

With all these circumstances in favor of making Kansas a free state, the "agitators" propose to abstain from all participation in the election of delegates to the convention, the inevitable result of which will be, as the Black Republicans themselves confess, "the enactment of a pro-slavery Constitution." Are they prepared to shoulder the responsibility of such a course?

GOING, GOING, but not GONE!—The old auctioneer, Ed. Stapleford, is again in full blast, ready to "knock down" and drag out all kinds of animals, goods, or chattels. He has been long known to the world and as his wind is still good, and his tongue newly oiled, he is an excellent trim for business, and will give general satisfaction to both buyers and sellers.

A most singular phenomenon was observable in the heavens yesterday (Tuesday) from sunrise until near noon. Radiating on either hand from the sun, and at about the zenith, a brilliant blue circle, somewhat similar to the milky way was flung out upon the heavens, forming a complete circle around the etherial universe. As the sun rose higher, two other circles radiating also from the sun, though not exactly parallel, spanned the heavens eastward, and transversely from the main one. At half nine o'clock a semi-circle resembling a half moon, facing opposite the sun, was observed about midheaven, and towards noon two circles of larger size, facing contrary ways, were suspended immediately over head. Five bright spots, two on either side, and one directly opposite the sun, and all in the orbit of the main circle, were observable. What this strange phenomenon portends is left to scientific men to explain.—*Golden Era.*

The same phenomenon was witnessed here. It did not continue as long as in Quebec, not being visible here less than 10 o'clock.

PORTLAND, ME., April 8.

The steamship Canadian, with Liverpool dates to the 24th of March, arrived here this morning (Friday).

Previous to the dissolution of Parliament, Lord Palmerston, in reply to certain questions, stated that no direct overtures for the return of embassies had been made from Naples.

The English press generally speak favorably of the moderation evinced in Mr. Buchanan's inaugural address.

France.—The accounts received by the Paris manufacturers from some of the manufacturing towns are rather favorable, but complaints are being made of the non arrival of orders for silk from the United States.

Letters from Marseilles of the 18th ult, say that the American ship Adriatic had been attacked in consequence of her collision with the Lyons's. Spain.—An extract from the London Times announces that letters from Cadix state that the forts at Vera Cruz had fired on the boats of the Spanish war steamer Ferrolas, and that the commander had demanded an explanation; that the Mexicans boast that they have assistance from the United States.

The Swiss and Neuchâtel Conference will probably meet on the 23th ult.

A communication was received from the Emperor, who published an edict giving orders that three ports should be opened, but the crews of any foreign vessels are forbidden to enter the interior.

China.—The Monitor Flotte gives the details of the arrest of the Chinese baker, who was executed for poisoning the bread used by the inhabitants of Hong Kong.

In reply to certain interrogations, he stated that he acted agreeably to the orders of the Viceroy.

Liverpool Markets.—Breadstuffs very dull; the markets closing quiet but steady. Flour is dull at the decline of 1s.; sales of Western at 27s 28s; Philadelphia and Baltimore 29s 29s 6d.

Wheat closed very dull at a decline of 2s.; sales of red 7s. 6d.; white 8s. 2d. Corn is quiet at a decline of 3d.; sales of mixed at 31s. The weather has been favorable for the crops. Bacon steady. Pork steady. Lard dull, with but little inquiry and prices weak; sales at 72s.

Kansas.—The Topeka Convention.—The New York Journal of Commerce, of Friday, March 27, concludes an article on this subject as follows: A telegraphic dispatch from St. Louis describes the closing action of the Free State Convention above referred to, which has just been held at Topeka, as follows: "Finally, that they are inflexibly determined to abide by the principles of equality and squatter sovereignty as enumerated in the Kansas Nebraska bill."

Really, we cannot fathom either the politics or the policy of these men, or of the party which upholds them. As nearly as we can comprehend it, it is about as follows: The Kansas Nebraska law is a terribly bad thing; therefore, we are "inflexibly determined to abide its principles." Slavery is a horrid evil; its "extension" is greatly to be deprecated; therefore, we will not even go to the polls to prevent such a result, although we have a large majority of the votes.

The Tiffin and Fort Wayne Railroad.

We have before us the Annual Report of the President of this road. From it we learn that the year just expired as proved more than usually favorable to the uninterrupted prosecution of the whole line—102 miles—now completed, and for the whole year, the principal contractors, and are now being delivered on the track, in readiness for the laying down of the iron rails in May or June next.

All the grading, right of way, and other expenses of the company, have been fully paid by the company, without the issue or sale of a single bond or other security of the road for that purpose; and from the commencement of the work to the present, each monthly estimate has been promptly paid, without a single exception.

This company has recently purchased from the Pennsylvania manufacturer, for the road of a house in the city of Philadelphia, and the delivery of which is to commence early in the opening of spring.

Of the 1st mortgage bonds of the company, amounting in all to \$1,500,000 per mile, there will remain unexpended in the iron purchase about \$500,000, which the company propose to offer for sale in the market or stock board to enable the purchasing of cars and machinery, and to provide all other necessary fixtures and appurtenances for the road.

The Tiffin and Fort Wayne Railroad is an important link in the Great American Central Railroad line. This line is attracting great attention in the East, because it will furnish the shortest and most speedy means of transit from the East to the West—connecting the most important western points with the great eastern cities.

We are glad to learn that Charles L. Johnson, Esq., now Cashier of the Seneca County Bank, and one of the most energetic and efficient business men in the west has been selected as President of this road. With the present Postmaster, and Superintendent, we have no fear that the Tiffin and Fort Wayne Railroad will be well and efficiently managed.—*Tiffin Advertiser.*

Nicaragua.—Walker Victorious.

New York, April 2.

The steamship Texas arrived this evening from San Juan, Nicaragua, with dates to the 20th.

Nothing later from California.

News from Rivas is to the 18th. The purser reports the army in good condition.

Walker with 400 men, attacked the Allies at St. George, and gained the plaza and burned the important part of the town and retreated to Rivas, which Chemorro with 1,200 men, went to meet him, and he was driven back with great slaughter. Chemorro was killed, and Lieut. Freeman, his second, was mortally wounded. Gen. Harney, in his orders, speaks very highly of the conduct of Captain Stephenson.

From Kansas.—The Leconte correspondent of the Democrat says that the census-takers in Kansas are doing their work badly in some neighborhoods, taking no names, and in others never half the names of the actual residents.

There was much quarreling between the squatters and land associations in different parts of the Territory.

Several Deputy Marshals are arresting political prisoners on charges growing out of the difficulties last summer.

It will be seen by a communication published in the money articles of this day's paper, that the Michigan Southern Railroad Company have been detected in another large issue of stock. It does not yet appear whether it is an overissue or not, but it has been shown that several thousand shares of new stock have been privately issued and put upon the market. Just before the payment of the February dividend, a new issue of four thousand shares leaked out, and was afterward acknowledged by the company. We have now another issue of about five thousand shares, the whole of which has considerably been put upon the market at prices considerably above those now current. As extraordinary as this may appear, we are not at all astonished, but are prepared for many more operations of the same sort. We are surprised at nothing under the present system of railroad financing.—*New York Herald.*

Morse and Borden, the Special and Resident Ministers from this Government in New Granada, have been constrained to demand their passports, and to refuse to do justice to the matters now in issue with the United States, and that great excitement consequently exists on the isthmus where it is confidently anticipated that the Government here will promptly direct United States vessels of war take possession of the ports of Panama and Aspinwall.

The Mexican and Spanish Difficulty.—The Washington correspondent of the Baltimore Sun thus writes: The Hispano-Mexican question is soon to command the attention of the Government and people of the country. There are rumors in connection with the topic concerning the diplomatic appointments to be made for Spain and France. Another attempt to purchase Cuba will, no doubt, in any event, be made before long, and in anticipation of the threatened Spanish invasion of Mexico.

HALL HARMONY LODGE No. 19, I. O. O. F. Fort Wayne, April 8th, 1857.

DIED.—In San Francisco, California, on the 2d March, 1857, P. Grand JOSEPH P. EBSALL, of Harmony Lodge No. 19, I. O. O. F., in the 38th year of his age.

In the death of Brother Ebsall the order in this City has truly suffered a loss. He was beloved by all who knew him for his many virtues. Long will his memory be cherished by those among whom he has moved, for his many acts of kindness and love. He ever had a kind word to cheer the disconsolate, and his aid was extended to the poor upon all occasions. He was ever ready to "rejoice with those who rejoiced, and weep with those who weep."

The following preamble and Resolution were adopted by the Lodge: WHEREAS, it has pleased the Creator to remove hence from our Brotherhood one of its noblest members, Joseph P. Ebsall; therefore be it Resolved, That we deplore with unfeigned grief the death in the meridian of his manhood and usefulness, of our beloved Brother; that in sympathy with the pure and generous principles of our affiliation; that though a man of new worlds, his manly heart and willing hand gave a ready response to the call of every duty; that in his death our stricken band has lost a strong friend and cherished brother, the community a most excellent citizen, and his bereaved friends and kindred a true and devoted brother and friend.

Resolved, That we tender to the friends and relations of the deceased our sincere condolence in their overwhelming bereavement and irreparable loss.

Resolved, That this lodge wear the usual badge of mourning for thirty days.

Resolved, That a copy of the above preamble and resolutions be conveyed to the friends of the deceased and published in our city papers.

HALL OF F. W. WAYNE LODGE, No. 14, I. O. O. F. April 6th, 1857.

At a regular meeting of Fort Wayne Lodge, No. 14, I. O. O. F. the following preamble and resolutions were unanimously adopted:

WHEREAS, it has pleased the Almighty Dispenser of good to call home from among us, our beloved Brother, SAMUEL BRENTON, in the vigor of his manhood and in the midst of his usefulness, and whereas, we cherish a lively remembrance

The Blind, The Insane, The Mute.

It was rumored at Indianapolis yesterday, that the Superintendents of the several benevolent institutions of the State would immediately give notice to the proprietors of the several counties to take care of their own blind, insane, and deaf and dumb, no provisions having been made by the General Assembly longer to defray the expenses of these institutions. The Republican Senators who deliberately and intentionally prevented the passage of the requisite bills for the support of these institutions, may yet see their political error not only, but mourn their inhumanity towards those who are deprived of sight, of reason, or of hearing and speech. Their responsibilities they have voluntarily assumed will be fully appreciated by them, as the consequences of their mad partnership shall be more fully developed. A number of the pupils from the Blind Asylum were in the Senate Chamber till past midnight on Saturday night, pleading with their sightless eyes for themselves, and with their voices for their insane. It was enough to melt the heart of anybody but a Republican State Senator.—*Lafayette American.*

PROVIDENCE, April 1

Election in Rhode Island.—Dyer, the Republican candidate, has been elected Governor.

Very few Democrats are returned to the Legislature. Both Republican candidates are elected to Congress.

The whole vote in this city is as follows:—Dyer, Republican, 9,600; Potter, Democrat, 1,300. There were three candidates for Lieut. Governor, and no choice. Turner, Republican, will be elected by the Assembly.

The Senate stands: Republican, 26; Democrats 5. The House—Republican, 61; Democrats 8. Durfee's majority for Congress is nearly 3,500, and Brayton's 500.

We have a report from New Orleans to the effect that our government is to acquire the islands of Tehuantepec in consideration of \$12,000,000. Information has reached Washington of the opening of the carriage road across the Isthmus, and it is said that the Postmaster General will soon make arrangements for the transportation of the Pacific mails by that route.

Indian Battle in Florida.—Late intelligence from Fort Dallas confirms the report of an engagement with the Indians.

Captain Stephenson with part of a company of the 5th Infantry while near the Big Cypress swamp, were fired upon by a party supposed to be between eighty and a hundred Indians; they returned the fire, and after some close fighting the Indians retreated, leaving eight bodies on the field; five soldiers were killed, and Lieut. Freeman supposed to be mortally wounded. Gen. Harney, in his orders, speaks very highly of the conduct of Captain Stephenson.

(Continued from the First Page)

"Thanksgiving according to the proclamation of the white governor, it is the time when the young and old gathered at the banquet tables of the times house of St. Louis, to celebrate the deaths of John and Mary, and ample were the preparations for the feast. The worthy people, from that settlement were there also, and his little sister and other persons, with whom in these times it was to be deemed as a disgrace to associate with the Indians. I mean the white people. This party was, as they were then called, the little did they know that they had the dream of the white fate that awaited them!

"I was then just twenty-two, and having married my worthy wife—peace to her mourning a husband—only a few months before, I was surprised to go with my brother and sister, at the first but was intending to follow them as soon as our affairs could be arranged. I had been a week or two teeming and, and knowing what was to come, I made it in my way to the settlement. The ceremony of the party was in the night. The ceremony was just being performed, the minister had pronounced the solemn words when John and Mary joined together let no man part aside. The kiss was exchanged, and all were crowding round the happy pair with congratulations, when a yell wild and hideous rent the air—the deadly yell of the Indians. Then there was the extermination of all, faces in confusion before instant with happiness, were in a moment of horror and confusion. In an instant the white man burst on, and savage after savage with glittering knife and tomahawk rushed in to the slaughter.

"The hideous yell of the savage, the shriek and groans of the dying, they ring in my ear to the present day. I saw the bloody tomahawk and the skull of poor Jack, as he vainly endeavored to protect his bride. I heard her wail as the deadly knife pierced the bosom of the lovely Mary. I saw my sister fall dead at my feet. I saw the savage's arm uplifted. I felt a burning blow, and knew no more.

"The long I dreamed incessantly I have no means of knowing. I awoke as from a fearful dream. I was nearly crushed and covered entirely by dead bodies, to which circumstances I vainly owed my life. With a struggle I extricated myself from the dead upon and arose, and stood upon my feet. The sun was shining high in the heavens. O horrors, what a sight met my eye! There, in that blood, lay every one that had formed the bridal party; not a soul had escaped! How was it that I was alive? Instantly I put my hand to my head and felt a sharp scalp. I found the fracture. I had been struck with the back of a tomahawk, and only survived, and being covered by my friends, the Indians had neglected to scalp me.

"By one eye, I examined the bodies of all, to see if life was remaining in any. I found two or three whom the savages had neglected to scalp by chance alone. The sight was too horrible for human eyes. Coming again to my senses, I hurried from the dreadful spot, stepping over the mangled corpses of my sister and brother, and the bride and bridegroom in the embraces of death.

"I passed to the next; death had been there too. The smoking ruins of others told me too plainly, the tragic story; there was not a living being beside me in the settlement!

"When I think of that awful night, of the horrors of the morning as I awoke to sensibility my blood cries in my veins, and my head swims. From that time I swore vengeance on the red skins. It has long since been accomplished. Not one of that tribe lives to tell the story."

The United States and Naples.—By the following from the New York Tribune it will be seen that it is possible we shall have another Kanza case in Naples:

The latest case of Neapolitan injustices has created necessary an application to the Government of Mr. Owen, United States Chargé d'affaires. It seems that a man called upon Mr. Owen about two years ago called upon Mr. Owen and put in his claim for bounty land, and having served on board an American vessel in 1812. As he had no proofs of his identity, he is consigned to go on board every U. S. vessel which came into port and endeavor to get such proofs from some of the officers or crews. His efforts have been unavailing until lately, when he learned that the captain of Susquehanna had served in the same war and in the same vessel.

The captain did not recollect him, but from a number of questions which were asked answered him convinced of the truth of his story, and gave him a certificate accordingly. A day or two afterwards the wife of Laurio called on Mr. Owen in great grief, to say that her husband had been arrested, as she supposed, because he had been on board the Susquehanna. Mr. Owen immediately called on Signor Bianchini, the director of police, who denied all knowledge of the facts. A few days after, an answer was returned to the effect that Laurio had been arrested and by police authorities but by order of his military superior, on being a sergeant in the veterans. Here the case of the thing is explained, and the burden of the arrest merely shifted from one party to another.

It is stated that Mr. Owen is not to be put off with this evasive answer, and that he is determined to follow the matter up until he obtains the release of the poor innocent sailor.

Freightful Verbs.—The Paris correspondent of Fort's Spirit is responsible for the following:

It is astonishing how foreigners are imposed upon by some of our verbs. The other day I went to see a little Frenchman just arrived, who had been taking English lessons, as he informed me from a fellow passenger. He complained much of the difficulties of our grammar, especially the verb *to go*. Did you ever see such verb? With the utmost gravity he read from a sheet of paper: "Go, thou clearest, he cuts sticks, he breaks, ye or you abasquitate, they ramose the ranch."

The Morning Herald, published at Sidney, in Australia, says a golden nugget, weighing 5 ozs was recently found near Lou Creek. The value of the nugget is estimated at \$100,000. This is the biggest lump yet found in any diggings whatever.

Speaking of prayers, reminds us of one we once heard at a Methodist revival in a neighboring city. The speaker becoming animated burst forth with "O Lord, manifest thyself to us tonight; come right down through the roof and I will pay for the shingles!" The effect may be imagined.

"Jimmy, are your folks all well?"

"Yes, am all, but Sally Ann."

"Why, what's the matter with her?"

"O, nothing particular—only she had the hoops in cough once, and she haint never got over it. The cough ain't any account now, but she has the hoops deep."

"Marriage resembles a pair of shears," says Sidney Smith, "so joined that they cannot be separated, often moving in opposite directions yet always punishing any one who come between them."

Pat was hungry, and got out of the cars for refreshment. The cars were thoughtless, went on without him. Pat's ire was up. "Ye spalpeen!" he cried, starting on a run, and shaking his fists as he flew after the train. "Stop her, ye old tame vagin; ye murtherin' stame vagin—ye're got a passenger aboard that's left behind!"

The following is perhaps the meanest ever written.

CONSUMMATION.—Why was St. Paul like a horse? because he loved Timothy.

Experience and success as a Teacher and Post Office Book Keeper, has no hesitation in saying that the Institute has been afforded to young men for qualifying themselves for the counting room, and various other mercantile pursuits are unpassed by any similar institution in the Union.
The course of instruction is thorough and practical, embracing Book-keeping by single and double entry, and its application to every department of trade, as now practiced by the most accomplished and experienced accountants (taught on an entirely new and successful plan, enabling the student to become much more self-reliant than by any other plan.) Commercial law, Mercantile Correspondence, Commercial calculation, Practical and Ornamental Penmanship, &c.
The system of penmanship adopted in this institution is unrivaled, giving a free and easy use of the hand and pen, thereby enabling the student to effect any style of writing. Young ladies and gentlemen learn much time and expense by securing this system, taught in no other institution in the West.
The thorough and extensive course of Instruction, combined with the elegance and every department of the rooms, the highly qualified teachers and convenient and healthy location, renders this the most attractive institution to all who may desire an acquisition of business education.
Being impressed with the necessity of Ladies associating themselves more thoroughly with business transactions, the Principal has fitted up apartments in neatness, elegance and convenience, expressly for the Ladies.
The Ladies Department is entirely separate from the main, having separate entrances from the street, and being permanently connected with the Institution.
Students are taught individually, and not in classes; therefore they can enter at any time, and advance in his ratio of their capacity.
